Trust-Based Relational Intervention (TBRI)[®]

AUGUST 19, 2022 • 8:30AM-5:30PM

@ The Chapel — 114 Harris Farm Rd. Brunswick, GA

■ Presented by: Ally Christianson, LCSW

Summary

TBRI[®] is an attachment-based, trauma-informed intervention that is designed to meet the complex needs of vulnerable children. This incredible model offers practical tools for clinicians, parents, caregivers, teachers, or anyone who works with Children, to see the whole child in their care and help that child reach his/her highest potential.

Learning Objectives

- Participant will gain an overview of TBRI[®] to include insight into a child's development, framework for interventions, and appropriate behavioral responses
- Explore concepts of connection that influence behaviors based on history of secure and/or fragmented attachment of children and caregivers
- Gain insight into the role of environmental influences and strategies to promote safe and predictable environments for children.
- Develop strategies that promote a child's ability to be content, feel connected, and display changed behaviors
