

# GAS STATION DRUGS

*and Their Impact on Human Growth and Development*

**JANUARY 19 • 9AM-4PM EST**

**8am CT • 7am MT • 6am Arizona • 6am PST**

**Presented by: Dr. Merrill Norton Pharm.D., D.Ph., CMAC**

## Summary

The Gas Station Drugs, such as tianeptine, phenibut, kratom, delta 8, delta 10, and other street drugs, have profound effects on growth and development. This presentation will discuss the current list of various herbal and pharmaceutical products, including phenibut, tianeptine, kratom, ketamine, delta 8, and delta 10, known as "gas station drugs" and their pharmacological profiles to include their dangerous adverse drug effects.

## Learning Objectives

1. Develop a vocabulary of the current herbal and pharmaceutical drugs known as the gas station drugs
2. Gain an understanding of the pharmacodynamics and pharmacokinetics of Phenibut, Tianeptine, Kratom, Ketamine, Delta 8, and Delta 10
3. Comprehend the severe adverse drug effects of Phenibut, Tianeptine, Kratom, Ketamine, Delta 8, and Delta 10 when it comes to growth and development
